

# EXTENDED WARRANTY PROGRAM

## METOS PRE-SEASON TUNE-UP – NEW FOR 2021!

Each METOS USA station that leaves our warehouse goes through strict testing procedure to ensure that all sensors, SIM cards and station attachments are working at optimal level. Throughout the season, however, these stations are subject to all the elements that mother nature has to offer.

NEW for the 2021 season, METOS USA will be offering a seasonal inspection for any METOS station. Just ship your unit back to our production facility and let us get everything back into 'like-new' condition for you!

### WHAT'S ALL INCLUDED?
